

# VIRTUAL TEST SESSION INFORMATION

IceWorks will be offering virtual test sessions on a monthly basis. This provides the skater and coach flexibility in testing to allow for more options based on schedules, location and other individual needs. Please refer to the Virtual Test Guidelines and Instructions on the USFSA website for more specific details as it relates to virtual tests.

To register for a virtual test at IceWorks, please go to Entryeeze and complete a test registration just as for any other skating test. The key difference is selecting which month's virtual test you wish to register for. Payment is required at time of registration similar to in-person testing.

Upon completing the virtual test registration and payment, the skater will receive instructions on how to conduct and submit their virtual test. The information provided to the skater will include:

- IWSC Affidavit for Virtual Test Submission form which must be completed and submitted with the video
- IWSC Virtual Testing Video Requirements
- USFSA Virtual Test Guidelines
- A link for the skater to submit their video with completed submission form

The skater will receive their testing results no later than by the end of the month they completed the test and will receive copies of their judges score sheets. It is ultimately the judges discretion to accept or deny any video submissions and as with any test, their results are final.

IceWorks Test Chair will submit the final test result to USFSA same as in-person tests to update the individual skater's test profile. For any questions or assistance please email [testing@iceworkssc.org](mailto:testing@iceworkssc.org).

Please note to complete a virtual test with another club, you must register on their club Entryeeze just as you would for an in-person test at their club and that club will provide their specific instructions as each club may operate slightly different. IceWorks will receive any virtual test results from tests taken with other clubs just as we do for any in-person tests taken at other clubs.
